

Real People Creating Real Miracles

Every century, a few **revelations** seem to **revolutionize** the way we live. The discovery of electricity, the creation of the automobile, the evolution of air travel and the birth of the internet are just a few examples. While these inventions may be commonplace today, their initial development was many times marked by doubt, controversy and denial. There were large groups of people who simply said, **"It cannot be done."** Each time, a group of early adopters believed in the advance of technology and eventually the small number of early adopters led a mass of people to the **new technology**.

What will the future hold for the great revelations of the 21st century?

We believe one of the greatest advances in spiritual technology for the 21st century is **The AIM Program of Energetic Balancing**. What may make the 21st century unique with regard to advances is that this century will couple technology advances with spirituality.

As part of our outreach activities, EMC² offers two Scholarship Programs. Children and adults with the frequency of Autism or the frequency of Down Syndrome may enroll in The AIM Program free of charge. For more details, visit the Scholarship page on www.aimprogram.com.

Peter From Nevada

I have been wearing hearing aids for the past few years since losing 50% of my hearing due to being a professional drummer. Recently I was with friends and forgot to wear my hearing aids. Much to my surprise I was able to hear the entire conversation at the table. I used to have to use my left ear when talking on the telephone and now I can use the right ear as well and hear conversations clearly, which I have not been able to do for at least 15 years. It's great to be able to use either ear and hear so much better. I attribute the improvement in my hearing to my self-healing while on The AIM Program.

Natalie & Kit From Colorado

After joining AIM my 13 years old dog Kit's health has improved immensely. Since she was a puppy she's had to eat prescription food because she lacks the enzyme to break down proteins, which made it difficult for her to lose weight. Within the first couple months of being on AIM her overall health began to improve and she began losing weight as well! She's always been pretty active, but now she runs around playing like she did when she was a puppy. She has even retained her youthful appearance. It's hard to believe that she's 13. Thank you AIM for helping my best friend!

Dwayne From Canada

Our daughter Makenna is a participant of The AIM Autism Scholarship Program. At 4 years old she had extreme anxiety when we would go to places not familiar to her. She would freeze or scream and cry until we left the area. Doctors were adamant about giving her drugs to control her anxiety, but my wife and I feel that was not what she needed. We were introduced to EMC² by a relative and were willing to try something that would have positive effects for Makenna. During the day we have a worker that comes to our house to teach Makenna new things. The worker tried on several occasions to get Makenna into a play group but ended up leaving every time. About 5 weeks into the program we tried again. The first time she spent a full day in a group with other kids. Thanks so much for giving this opportunity to our daughter. We've seen some amazing things and hope it continues for many more years to come!

Believe...

YOU CAN HEAL YOURSELF

We have a very simple mission. We want to live in a world where everyone is conscious and everyone

has the opportunity to express their true potential.

“Miracles occur as they are required. Sooner would be pointless, later would be obsolete.”

Stephen Lewis Developer of The AIM Program

Learn about The **AIM** Program of Energetic Balancing in the novel **Sanctuary: The Path to Consciousness** written by EMC² founders Stephen Lewis and Evan Slawson.

How AIM Energetic Balancing Works

Everything is energy: therefore, everything has a frequency. Imbalances have frequencies that can be brought into balance and neutralized by applying a balancing energy. The **AIM** Program is a spiritual process performed by making subtle-energy balancing frequencies available to a participant's photograph. Based on the holographic principle, your photograph acts as an energetic surrogate for your energy pattern.

The **AIM** Program of Energetic Balancing does not, and cannot heal you. Only YOU can heal YOU. The ministry of EMC² and The **AIM** Program is not health care or medicine and it does not diagnose, treat, prevent or cure disease. The **AIM** Program is a TOOL that YOU can use to heal yourself.

As an **AIM** participant, you will have access to thousands of balancing frequencies 24 hours a day, 7 days a week.

In **Sanctuary**, you will meet Jane, a terminal cancer patient who is getting worse with each course of chemotherapy. Jane sets out on an adventure to find Max and visit his “Sanctuary” in the desert. Max shows Jane how she can use energetic balancing to heal herself. The character Max Stephens is based on the real-life visionary work of Stephen Lewis. The energetic work illustrated in **Sanctuary** is available through EMC².

EMC² was founded in 1998 by Stephen Lewis, Roberta Hladek and Evan Slawson. EMC² offers The **AIM** Program of Energetic Balancing to people worldwide. Over 50,000 people have enrolled in The **AIM** Program of Energetic Balancing to attain higher levels of emotional, physical and spiritual well-being.

Photographs are digitized and used to receive the balancing energies.

Cost of The AIM Program

There are several payment plans available to enroll in The **AIM** Program. The family plan allows up to 5 people (who are related) to enroll for \$2,000 a year. Individual plans are also available for \$1,000 a year or \$100 a month (paid in 10 monthly installments).

Step 1 Fill out your application for energetic balancing and attach a picture of yourself (you alone with no other people or animals, or pictures of people or animals in it, preferably head to toe).

Step 2 Contact your Facilitator. They will assist you in processing your application and provide mailing instructions.

Step 3 EMC² performs an initial life force check from your photo. Your Facilitator will inform you of the results of this life force check. We place your picture on the trays which deliver the balancing frequencies.

Step 4 You immediately begin receiving balancing frequencies, which allow you to heal yourself. Your Facilitator is always available to answer any questions or concerns, and to offer you guidance in your self-healing process.

“Everything is energy. **Everything and everyone has a frequency.** Those frequencies that are out of balance with our natural harmony can be identified and removed. I know this to be true. I have seen the Sanctuary process at work. **This is real, it is transforming, it is true healing.** It is available now.”

Jean From Spain

For the first time in many years I feel really well all over! Before starting The AIM Program, I suffered ongoing pain for 25 years due to a lower back weakness from a serious horse-riding accident. Although I've received chiropractic care every few weeks for maintenance, I could always feel when my next visit was about due. Now the periods between visits are longer and I don't have pain. Also, I don't get migraines any more - the bane of my life! My thinking is clearer and my memory sharper. I have recommended this program to friends and they are already starting to report big improvements to their general well-being too. I cannot thank the AIM team enough for all their research, care and attention.
